(54) Title: DISPENSING SYSTEMS

(57) Abstract: Disclosed herein is a delivery system, comprising dispensing means having an outlet for delivering one or more materials or one or more articles; dispensing control means for controlling the passage of the material or article through the outlet; first identification means operable for recording, emitting, carrying or associating first identity data to identify the dispensing means, or the material or article carried thereby; and permission control means operable to establish a predetermined condition of the dispensing control means when a corresponding predetermined relationship is established between the first identity data and second identity data of an associated entity.
